Given the lack of any documentation or clarification of the drone matter by SRS or the protective force, I will continue to regard it as a rumor until such time that it's fully documented.

Sincerely,

Tom Clements  
SRS Watch

Subject: Re: rumors of drones over SRS?

The protective force at SRS has confirmed several sightings of Unmanned Aerial Systems (UAS) flying in SRS airspace in June. SRS takes these reports very seriously and is coordinating with appropriate federal, state, and local authorities.

As the investigation remains open and involves other agencies, at this time SRS cannot provide you the more clarification, documents or photographs as you requested.

My concern remains about unknown individuals at SRS involving me and SRS Watch related to

rumors of drones at SRS. I do not know if the security personnel who have involved me and SRS Watch are with DOE or the Centerra security company.

I expect prompt clarification from SRS as to what is going on and await substantiation and documentation as well as photos. I know nothing about drones at SRS, whether it's a rumor or actually true, and have learned nothing further since last week about any aspect of this matter.

Thank you for your response.

Hello Jim Giusti & Monte Volk,

As you will be aware, I have heard the rumors about drones evidently being spotted over SRS. While I know nothing first-hand about this I am getting inquiries about it.

Thus, I request that SRS provide some solid documentation to me to validate what may have actually taken place.

Thanks for your response -
